### Introduction

We use humor in every aspect of our lives. We use it to build community, break down barriers and to assist us in solving problems with a lighter touch. We use humor to sell ourselves, our companies, our services, our products, and our ideas. We use humor to lighten the load, to create relationships, to heal, to overcome, to remain whole.

A former educator, award winning humorist, and President of Laughter’s Echo, please Welcome T. Marni Vos
